

Set Up Instructions

1.

2.

3.

4.

5.

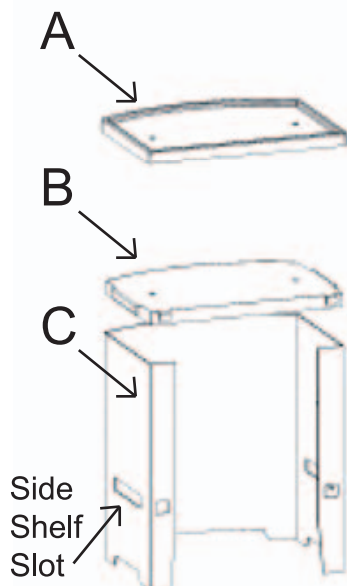

1. Stand unit shell (C) upright as shown in figure 1.*
2. Insert shelf (B) into (C) side shelf slots and rear shelf slots.
3. Install top (A) as shown figure 3.
4. Connect mast poles (D) and insert thru header mast hole onto shelf mast stud.
5. Install header (E) onto both masts. Check that inside shelf is inserted into both side and rear shelf slots. Make sure both masts are inserted into the shelf mast studs on the inside shelf.

IMPORTANT!

* It is recommended that you set-up your Forum unit in it's intended location. when moving your set-up unit, two people are required, check for shelf and mast proper installation. Moving an upright unit may result in Damage.

Important Note about Repacking:

Avoid damage and scratching by placing the supplied cardboard between the graphic base unit, shelving and header. Place the mast sections in the designated sleeves on the sides of the carrying bag (carry bag not shown).
